Action Taken Report

To enhance quality initiatives at Sasurie College of Engineering (SCE), the Institution's Internal Quality Assurance Cell (IQAC) collected feedback from diverse stakeholders including students, faculty members, alumni, employers, and parents. This feedback focused on evaluating the academic performance, campus environment, curriculum, and syllabus aligned with Anna University, Chennai.

After analyzing the feedback related to academic performance, curriculum, and syllabus, the findings were presented at an IQAC meeting. The primary goal was to address identified curricular gaps in the proposed Anna University R-2017 Curriculum and Syllabus.

At the behest of SCE's IQAC members, the inclusion of specific topics was proposed to enhance the existing Anna University R-2017 Curriculum and Syllabus. This initiative aims to bridge gaps, incorporate contemporary trends, and ultimately benefit the student community.

Subsequently, a letter was sent to the Board of Studies (BoS) at Anna University, urging consideration of these recommendations during their upcoming meeting.

Page 1 of 2

Table -1. The topics identified to address curricular gaps in the Anna University R-2017, Curriculum and Syllabus will be recommended for discussion at the upcoming Board of Studies (BoS) meeting at Anna University.

Report on Value Added Course

Title:	Data Analytics for Engineering Applications				
Resource Person:	Mr. Bose Vasantha, Trainer, Sunrise Electronics, Coimbatore-641001.		DM. Kishorkumar, Manager, Sunrise Electronics, Coimbatore-641001.		
Date of conduct from :	07.03.2022	To:	11.03.2022	Duration:	30 Hours
Organized by :	ELECTRONICS AND COMMUNICATION ENGINEERING and IQAC in association with Sunrise Electronics				
Academic Year:	2021 – 2022		Semester:	EVEN	
Participant Year:	II, III, IV Year - ECE, EEE, MECH and CIVIL		No. of Students Participated :	27	
Venue:	SEMINAR HALL-ECE				

Outcome of Value Added Course (VAC)

At the end of the Course, Students can be able to

- Define key terms and concepts related to data analytics in engineering.
- Demonstrate proficiency in data cleaning and handling missing values.
- Evaluate and interpret the performance of machine learning models.
- Apply techniques for handling and processing large datasets in engineering.
- Identify and address ethical issues related to data analytics in engineering.

Assessment Process

- Students, who are securing more than 70% on total score in the VAC test and secured more than 75% in VAC attendance is eligible to receive the course completion certificate for the VAC attended
- Total Score = (0.5 * Attendance in VAC out of 100 percentage + 0.5 * Test mark in VAC out of 100 marks)

No. of students successfully completed the VAC course is 27 Students based on the above assessment process.
