Respected Sir Madam,

Sub: Submission of project consultancy work quotation-Reg
Ref: Letter dated 06/07/2019.

Greetings from Sasurie College of Engineering!

With reference to your letter, our college CSE Department has prepared and wishes to send the quotation to carry out the consultancy project of your esteemed organization. We would like to bring to your kind notice that, the project "Inventory Management System" may cost around Rs. 97,000/-.

We assure that we will provide the required technical support from our end, for the successful completion of the project. We are looking forward your kind consideration about our consultancy project work proposal and we request you to contact us for any queries about the design and working of project.

Thanking You

With warm regards

U. Jayas

SANCTION LETTER

Date: 15.07.2019

To

The Principal,
Sasurie College of Engineering,
Vijayamangalam - 638 056.

Respected Sir/Madam,

With reference to your proposal submitted on 10.07.2019, we are satisfied with your response. We approved the consultancy work of "Inventory Management System". It is also noted that consultancy amount sanctioned is Rs 85000/- as per our discussion and the work should be completed within the stipulated time period. Further, I will coordinate with you in further proceedings of the project.

Thank You

Managing Director
Deepa Marimuthu

CONSULTANCY PROJECT REPORT

OBJECTIVE:

Inventory Management Software is used to examine the stock available in stores. This software is used to record the details of each transaction. It contains customer list, supplier list, product list, purchase order, sales order and dashboard.

PROJECT DESCRIPTION

The cashiers provide product descriptions and unit prices that are stored in the Sales and Inventory System databases. If the customers desired to acquire a product, the employees could utilize the system to record the goods they had bought from the clients and then save that record. To process the sales, the cashier receives the records from the workers. The staff gives the records to the cashier to process the sales. After the process, the cashier would generate a receipt to be given to the customer. The manager will check the inventory records if there are products needed to stock in or stock out. If the manager noticed that there are cut-of-stock products, the manager will order products to the supplier to be saved to stock in item records.

The purpose of Inventory system is to serve customers efficiently. The aim is to help the employees of different company make their work faster by using the system where they can observe the remaining products in the records where they can see in the database. The system will provide a good service to the company like better transaction process that brings bigger profit.

CONCLUSION

The inventory management is used to make the process fast and accurate in the recording of sales and inventory. This makes effective and efficient sales and inventory can properly monitor the flow of the products from the sales and inventory. It becomes big to track the goods of sales and inventory.
